

prompt

Description

Prompt supports the development and advancement of cutting-edge technologies in Québec across strategic technology fields: AI, quantum technologies, microelectronics, and optics and photonics. As a catalyst within Québec's technology innovation ecosystem, Prompt helps companies bring their R&D projects to life — from ambition to innovation — particularly in strategic sectors such as defence, cyber resilience, manufacturing productivity, and telecommunications.

Section 1

Logotypes

Our logo features the brand name and serves as the primary visual identifier.

prompt

The exclusion zone is defined by the width of the spacing between the symbol and the word "Prompt."

This ensures the logo maintains proper balance and visibility within the layout. This clear space represents the absolute minimum safe distance around the logo. In most cases, additional breathing room is recommended.

The logo must never be displayed at a width smaller than 1.5 inches.

::: prompt

Minimum size

1,5 inches

The logo can also be used with the slogan. When placed horizontally, the slogan is aligned below the logo.

The image shows a horizontal arrangement of a logo and a slogan on a light gray background. The logo consists of seven black dots arranged in a 3x3 grid, with the bottom-right dot missing. To the right of the dots is the word "prompt" in a bold, lowercase, sans-serif font. Below the logo and the word "prompt" is the slogan "From ambition to innovation" in a smaller, uppercase, sans-serif font.

prompt
From ambition to innovation

The exclusion zone is marked by the height of the “r” in “Prompt.” This measurement ensures that the logo maintains an appropriate distance from the margin. This zone should be considered the absolute minimum safety distance. In most cases, the symbol should have even more breathing room.
